***Claim Objections***

1. Claims 49 are objected to because of the following informalities: There are two claims numbered 49. One of them should be renumbered as 50. Appropriate correction is required.

***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 17-18, 31-32, 46, and 49, are rejected under 35 U.S.C. 101 because the claims are directed to computer media storing nonfunctional descriptive material.

Data structures not claimed as embodied in computer-readable media are descriptive material *per se* and are not statutory because they are neither physical "things" nor statutory processes. See, e.g. *Warmerdam*, 33 F.3d at 1361, 31 USPQ2d at 1760 (claim to a data structure *per se* held nonstatutory) and merely claiming nonfunctional descriptive material stored in a computer-readable medium does not make it statutory. (See MPEP 2106.IV.B.1.

4. Claims 13-16, 19-30, 33-45, 47-48, are allowable over the prior art of record.

***Response to Arguments***

5. Applicant's arguments filed 9/8/05 have been fully considered but they are not persuasive.

Regarding the Applicant's argument in that the claims recite statutory subject matter because the claimed invention calls for a signal and that signals are physical things, Examiner disagrees. It is noted that one of ordinary skill in the art would readily

recognize that signals are not physical things instead they are a form of energy and that such is not statutory.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
